

GENSETS – GALAXY series

Illustrative photo – GALAXY heavy duty special

Description

GALAXY series of ONIS VISA genset includes power from 20 to 840 kVA P.R.P. (prime power) for possible usage as a primary power source or back-up power supply. It is realized with a noise damping cover with exhaust muffler located inside which results in an additional decrease of noise level. There is a possibility to place a genset either to internal or external environment. GALAXY series can be divided into standard, heavy duty standard and heavy duty special version.

Standard version of GALAXY series genset is a covered genset with a fuel tank located in the bottom (the tank is not integrated in the frame) and with exhaust gas muffler integrated in the cover, which results in the decrease of a noise level similar to that of a silent version of POWERFULL genset. It is possible, if required, to equip the genset with ecological trapping tank and/or equip the genset with the external fuel tank of a required capacity.

Heavy duty standard version of GALAXY series genset has, in comparison with the previous version, a strengthened frame and contains the ecological trapping tank under standard conditions. It is possible, if required, to equip the genset with a central frame containing two gripping hooks.

Heavy duty special version of GALAXY series genset has a strengthened frame and an ecological trapping tank. This version contains a central frame with two gripping hooks under standard conditions.

GALAXY series gensets are equipped with PERKINS, JOHN DEERE, DEUTZ, VOLVO PENTA or IVECO four-stroke diesel engine. It is possible to supply an ATS switch board equipped with contactors or motorized circuit breakers to gensets in automatic version (automatic start in the case of mains failure), that insures switching of power supply load between mains and genset.

Models review

GALAXY series gensets	
Engine producer	Power range (apparent power P.R.P. listed in kVA)
PERKINS	30 – 42 – 60 – 80 – 100 – 136 – 150 – 180 – 300 – 350 – 400 – 455 – 500 – 591 – 650
JOHN DEERE	30 – 40 – 60 – 80 – 100 – 120 – 160 – 180 – 200 – 250 – 255 – 390
DEUTZ	20 – 30 – 40 – 100 – 130 – 160
VOLVO PENTA	200 – 250 – 326 – 375 – 400 – 500 – 550 – 630
IVECO	60 – 85 – 100 – 120 – 130 – 160 – 200 – 300 – 350 – 400 – 720
